OPERATING INSTRUCTIONS

⚠ WARNING: FAILURE TO FOLLOW BASIC GUN SAFETY AND THE OPERATING INSTRUCTIONS FOR YOUR PISTOL MAY CAUSE SERIOUS PERSONAL INJURY OR DEATH. DESIGNED FOR EXPERIENCED SHOOTERS. RECOMMENDED FOR ADULT USE ONLY.

Important instructions for the use of blank firing guns.

It should be remembered that even the safest gun is potentially dangerous to you and others when it is not properly handled. Read and understand the operating instructions and learn how the gun works and is to be handled. Always treat any gun as if it were loaded.

⚠ WARNING: KEEP YOUR FINGER AWAY FROM THE TRIGGER UNLESS YOU INTEND TO FIRE. ALWAYS KEEP YOUR GUN POINTED IN A SAFE DIRECTION SO THAT YOU AND OTHERS CANNOT BE ENDANGERED.

A gun can only be safe as long as it is in flawless operating condition. Incorrect handling and lack of maintenance may lead to malfunctions and reduced safety of the gun. Always be aware of possible risks from dropping your pistol or from corrosion or other external influences. In such cases, have your gun inspected by a competent gunsmith before using it again. Unauthorized modifications to the mechanism, damage caused by the application of force, or modifications performed by third parties will result in the manufacturer not assuming any liability. Only an Umarex USA gunsmith is qualified to work on this blank firing gun. Contact Umarex USA for repairs.

- Safe gun handling is YOUR personal responsibility at all times. Safety must be the prime consideration of anyone who owns or handles any gun.
- Pistols without a safety should always be carried with the chamber clear and magazine removed, or cylinder unloaded.
- Before putting down the revolver always make sure that it is not loaded. Remove the magazine and verify that no cartridges are in the chamber.
- Guns and ammunition are to be stored separately from each other in order to keep them away from unauthorized persons or children.
